JAPN001A PO

Elementary Japanese

May 13, 2016

Springer

This book is dedicated to make people understand more about
Japanese language.

Preface

This book is a compilation of workbooks and many examples the author gathered from many sources regarding elementary Japanese.

Claremont, CA,

Teerapat Jenrungrot
May, 13

Contents

Part I

Part 1: Basic Hiragana

This part includes a basic Hiragana.

Chapter Heading

Your text goes here. Separate text sections with the standard L^AT_EX sectioning commands.

1.1 Section Heading

Your text goes here. Use the L^AT_EX automatism for your citations [?].

1.1.1 Subsection Heading

Your text goes here.

$$\mathbf{a} \times \mathbf{b} = \mathbf{c} \tag{1.1}$$

Subsubsection Heading

Your text goes here. Use the L^AT_EX automatism for cross-references as well as for your citations, see Sect. ??.

Paragraph Heading

Your text goes here.

Subparagraph Heading. Your text goes here.

Table 1.1. Please write your table caption here

first	second	third
number	number	number
number	number	number

Fig. 1.1. Please write your figure caption here

Theorem 1.1. *Theorem text goes here.*

Lemma 1.2. *Lemma text goes here.*

Problems

1.1. The problem¹ is described here. The problem is described here. The problem is described here.

1.2. Problem Heading

- (a) The first part of the problem is described here.
- (b) The second part of the problem is described here.

¹ Footnote

Chapter Heading

Your text goes here. Separate text sections with the standard L^AT_EX sectioning commands.

2.1 Section Heading

Your text goes here. Use the L^AT_EX automatism for your citations [?].

2.1.1 Subsection Heading

Your text goes here.

$$\mathbf{a} \times \mathbf{b} = \mathbf{c} \tag{2.1}$$

Subsubsection Heading

Your text goes here. Use the L^AT_EX automatism for cross-references as well as for your citations, see Sect. ??.

Paragraph Heading

Your text goes here.

Subparagraph Heading. Your text goes here.

Table 2.1. Please write your table caption here

first	second	third
number	number	number
number	number	number

Fig. 2.1. Please write your figure caption here

Theorem 2.1. *Theorem text goes here.*

Lemma 2.2. *Lemma text goes here.*

Problems

2.1. The problem¹ is described here. The problem is described here. The problem is described here.

2.2. Problem Heading

- (a) The first part of the problem is described here.
- (b) The second part of the problem is described here.

¹ Footnote

Chapter Heading

Your text goes here. Separate text sections with the standard L^AT_EX sectioning commands.

3.1 Section Heading

Your text goes here. Use the L^AT_EX automatism for your citations [?].

3.1.1 Subsection Heading

Your text goes here.

$$\mathbf{a} \times \mathbf{b} = \mathbf{c} \tag{3.1}$$

Subsubsection Heading

Your text goes here. Use the L^AT_EX automatism for cross-references as well as for your citations, see Sect. ??.

Paragraph Heading

Your text goes here.

Subparagraph Heading. Your text goes here.

Table 3.1. Please write your table caption here

number	number	number
number	number	number

Fig. 3.1. Please write your figure caption here

Theorem 3.1. *Theorem text goes here.*

Lemma 3.2. *Lemma text goes here.*

Problems

3.1. The problem¹ is described here. The problem is described here. The problem is described here.

3.2. Problem Heading

- (a) The first part of the problem is described here.
- (b) The second part of the problem is described here.

¹ Footnote

Chapter Heading

Your text goes here. Separate text sections with the standard L^AT_EX sectioning commands.

4.1 Section Heading

Your text goes here. Use the L^AT_EX automatism for your citations [?].

4.1.1 Subsection Heading

Your text goes here.

$$\mathbf{a} \times \mathbf{b} = \mathbf{c} \tag{4.1}$$

Subsubsection Heading

Your text goes here. Use the L^AT_EX automatism for cross-references as well as for your citations, see Sect. ??.

Paragraph Heading

Your text goes here.

Subparagraph Heading. Your text goes here.
